

NTBCV NEWSLETTER

May 2023

A word from our Chairperson

So much has happened in the last couple of months.

As members on our email list receiving this e-Newsletter some of you will have been able to attend our 25th Anniversary Reception in Parliament House generously hosted by our Chief Minister, the Honourable Natasha Fyles MLA.

It was great to see a real mix of longer term members and newer members – some familiar faces and some new faces.

It was also gratifying to have some wonderful testimonials sent through from some of our foundational, imposing supporters who were only too willing to lend a hand and encourage us in those early days. Many fond memories were shared.

Thank you also to Michelle Hanton OAM (a Founding Member) for travelling from Queensland to share in our celebrations.

25 years, an amazing achievement – but there is still work to be done in the advocacy arena!

For those who were able to attend the Darwin BCNA Forum on Wednesday 17th May, it would have to be agreed it was a great information sharing day with many of the current contemporary procedures outlined. Also a great opportunity to network with some of our local providers in a variety of fields.

NTBCV Committee

On the committee front, work is being carried out on updating the email list – many hiccups trying to iron out emails that kept bouncing and those undelivered. I'm sure there are still many flaws to be corrected so if any of you are aware of others who have experienced a breast cancer diagnosis and they would like to be included in updates please ask them to forward their contact details or scan the QR Code and complete the required details.

If any members are keen to be a part of our team there are still positions available on the Committee – for further information please email Judy (Chairperson)

OUR MISSION

"NTBCV aims to ensure the continual improvement of services and conditions for all Territorians affected by a breast cancer diagnosis."

Thanks to Michelle Hanton for bringing us into the here now by creating the QR Code at left for those who would like to sign up to our email list.

Please share with others who have been affected by a breast cancer diagnosis and would like to stay informed of local NTBCV activities.

If you wish to contribute to a Newsletter or have something relevant and worth advertising, please feel free to contact NTBCV.
